NEED AN INTERNSHIP? While Career Services does our best to screen, not all websites screen as diligently for companies who might be a scam to students. If a listing seems too good to be true, be cautious and voice your concern to Career Services. If you see listings by “Dream Career”, while they have some good contacts, they charge an expensive fee. If you need more career-specific sites, make an appointment with a UMass Career Advisor. In addition to UMass CareerConnect, here are other sites:

Use key words like psychology internships, Boston, marketing, or chemistry intern, NJ, etc.
