

# Contract for Biotech Research Experience

Students should meet with their potential faculty sponsor to discuss whether there are open positions, projects available, and how many hours of work in *and* outside the lab or facility are expected (e.g. 1 credit = 3 hours per week; 2 hours in lab, 1 hour background reading or 3 hours in lab). To be enrolled, email contract directly to [mschneider@vasci.umass.edu](mailto:mschneider@vasci.umass.edu) (email from faculty is equivalent to faculty signature) or bring the printed contract with faculty signature to Mary Schneider at 427Z ISB. Faculty sponsors are responsible for ensuring that students attend or renew required lab, fire safety, biohazard safety, animal care and other applicable training. Contact Dr. Janice Telfer, Undergraduate Program Director with general questions at 545-5564 or [telfer@vasci.umass.edu](mailto:telfer@vasci.umass.edu)
